Re: Coring Program- M/047/007

Dear Mr. Gallegos:

SF Phosphates is hereby informing you of our 1995 drilling/coring program. We intend to take 11 ore cores in the immediate vicinity of the active mining area. This program will begin on September 11, 1995 and should be completed by September 22, 1995. Total disturbance associated with this project is estimated at less than one acre. Holes will be backfilled with drill cuttings prior to abandonment.

Please contact me if you need additional information.

Sincerely,

Ronald G. Ryan
Environmental Specialist
